We can source any type of flooring to order including exotic timbers and different hand finishes

## Check List when buying a quality hardwood floor

This is a guide to help you when buying your floor to ensure that you have everything that you need for a trouble free installation and continued enjoyment of a high quality floor that will look good for years. You must ensure that you use our professional care kits and cleaning solutions for your floor so that it retains its lustre and hardwearing finish and maintains our warranty. The reason for using the professional care kits is that they protect the floor, as modern detergents have chemicals that can damage any floor finish. The self adhesive felt pads help prevent furniture from damaging the wood floor.
