

FOR A SUSTAINABLE DEVELOPMENT TO PROTECT PEOPLE AND THE ENVIRONMENT

Our research aims to achieve high-performance solutions and total quality while respecting people and the environment.

The environment is a key concern in each and every stage of development of our products.

Innovation is guided by professionals seeking reliable and easy-to-apply products and users concerned about being in a safe environment.

A production site exclusively for water-based products.

Belmont-Tramonet: a production site exclusively dedicated to water-based products. At the start of 2002, Blanchon opened a new factory entirely dedicated to water-based finishes in the Savoie region. This ultra-modern production unit exemplifies our commitment to environmentally-friendly production (ISO 14000). Consequently, all the water-based varnishes, wood floor lacquers, woodstains and paints produced on this site are totally environmentally friendly in content and throughout the production phase.

A recognised and certified environmental system since 1988.

Naturally, the success of our product ranges is based on keeping up with the latest trends in decoration and creating high-performance products of certified quality which are fully environmentally-friendly.

Ecological issues are a real priority for Blanchon as is clear from the numerous certifications the company has obtained for 15 years.

Since 2004, we have made the environmental quality of our products a priority, with a view to managing them properly throughout their life cycle.

Shades and colour charts may vary - Swatches can be found at your local distributor.

INTERIOR

WOOD FLOOR OIL ENVIRONMENT®

Wood Floor Oil Environment® combines excellent performance with respect for people and the environment: it has been designed to meet high environmental standards (very low V.O.C. level, waste-free production, raw materials and colourings having a minimal impact on the environment), and it benefits from Blanchon innovative technology:

- QUICK DRYING, ODOUR FREE,
- RE-USE OF THE PREMISES FEW HOURS ONLY AFTER THE APPLICATION,
- HIGHLY-RESISTANT, BEAUTIFUL AND LONG-LASTING PROTECTION

With its Wood Floor Oil Environment®, Blanchon are once again confirming its environmentally-friendly spirit of innovation, and demonstrate that performance and respect for the environment can go well together.

LABELS

This product meets the European EN 71.3 "Toy safety" standard.

THE EUROPEAN ECO-LABEL
This environmental label is given to indoor paints and varnishes which meet the environmental requirements of the European Union's ecological labelling system.
