The One Coat System

High Solid Master Oil and Patina Disc

WoodCare Denmark introduces the new way of oiling using the WOCA High Solid Master Oil in combination with the new unique WOCA Patina Disc. The Patina Disc is fitted under the regular floor polishing pad. By polishing wet in wet in the WOCA Oil, the Patina Disc forces the oil into the surface and smoothens and saturates the surface in just one coat.

Advantages:

- One coat only!
- Fully saturated finish from day one!
- Fast drying!
- Very easy after care!
